### **The Dragon Path Expedition**

The Magical Power Spots Expedition is a seven-day experiential journey through Hampshire, Wiltshire and Somerset. The land of the ancient Celts, of King Arthur and the wise wizard Merlin, the land of St George and the Dragon; the land of mystical crop circles.

The Expedition begins on Wednesday, May 2, 2012 and ends Wednesday, May 9, 2012.

During these seven days we will see many new vistas, and will experience and learn much more. The English word "experience" expresses this beautifully with all its subtle shades of meanings and feelings. The expedition consists of a large number of these powerful 'experiences.'

- ✿ The Avebury Experience
- ✿ The Avalon Experience
- ✿ The Uffington Experience
- ✿ The Stargate Experience
- ✿ The Stonehenge Experience
- ✿ The Salisbury and Winchester Cathedral Experience
- ✿ The Total Experience
- ✿ The Alexandra House Hotel Experience

### ***The Avebury Experience***

Avebury is a power place of unparalleled magnitude. Literally. The 5000 years old stone circle measures 333 meters in diameter and initially contained 600 standing stones, 98 of which are still left. Avebury is bigger, older and regarded by many more powerful than Stonehenge. In Avebury you will be tutored by the expert guidance of Master Dowzers Maria Wheatley and Busty Taylor to discover the unknown powers of the 5000-year-old stone circle. Busty and Maria are the authors of *Avebury: Sun, Moon and Earth*. They will initiate you into the different power spots in Avebury and teach you how to identify these power places yourself and how to interact with them.

### ***The Avalon Experience***

On the mythical island of Avalon – now known as Glastonbury - the veil between the worlds is still thin. It is in this most holy of sacred places where you can easily activate the magic of your own inner Alchemy. In Avalon, you can feel how Heaven and Earth breathe into and through each other. This is the ancient dance of creation where Spirit and Matter interrelate. It is 'Squaring the Circle' and 'Circling the Square.'

Two great legends live on the Isle of Avalon. The legend of Joseph of Arimathea who brought the Holy Grail to Glastonbury, and the legend of King Arthur, who devoted his whole life to finding the Holy Grail.

In Glastonbury we will meet the very experienced investigator Anthony Thorley. Anthony will unveil for us the mysterious secrets of Avalon. He will introduce you to the power of the Michael and Mary ley lines and how they meander through the Abbey, the world's first Christian church.

We will follow the ley lines to Chalice Well, and taste the magic of infinity.

Next, the ley lines head to the mystical Tor following the Dragon labyrinth as it serpentine up to the summit.

### ***The Uffington Experience***

3000 plus year ago, a white horse, *probably a dragon*, was carved into a hillside just South of Uffington. It is particularly intriguing that the 375-foot-long enigmatic figure is only recognizable from the air. There is an ancient persistent legend that St George defeated a mighty Dragon on "Dragon Hill", and that where the dragon's blood spilled on the hill those many moons ago, no grass has grown since. Thus, the legend lives on!

Of course, St George, did not slay the dragon. He only tamed the dragon, becoming a "Dragon Master". He tamed his own inner dragons and became master of the external dragons. He became master of space, time, and matter.

About a mile to the southwest of Dragon Castle lies the tomb of **Wayland the Smith**.

Wayland Smithy is the keeper of another exciting legend about 'Alchemy' and 'Magical Powers'.

Wayland the Smith was in possession of a magical ring which was later stolen by a powerful and mean-spirited King. J.R.R. Tolkien, who lived an hour from the Dragon Castle at Uffington, drew inspiration from this ancient saga to create his famous book, *The Lord of the Rings*.

On top of Dragon Hill, following in the footsteps of St George, we will learn to tame our inner dragons so we can resist the Ring of Wayland. Although the Ring gave ultimate power, it also caused the ring-bearer to be more and more trapped in the material world. This is the lesson of Tolkien's, *Lord Of The Ring* – the lesson of being seduced by the Ring Of Power.

### ***The Stargate Experience***

In Alton Priors, which is in the Vale of Pewsey (known as the home to the world's most fascinating crop circles), is a very curious church. The church is called All Saints Church and dates from the 12th century. In the floor there are a number of hatches giving access to Sarsen stones. These are the same stones used to build Stonehenge and Avebury. The locals say this little church was built over a circle, of once standing Sarsen stones exactly like those used at Avebury and Stonehenge.

Another mystery at Alton Priors church is a Holy Well or Sacred Spring. Many have traveled far and wide to gain the healing effects of this Holy Spring, which was once dedicated to the Goddess. The presence of the Sarsen stones suggests that the location where Alton Priors church currently sits, has long been regarded as sacred, and hides an unknown secret.

In the little Alton Priors church, there is one more puzzling item that makes the church so curious. *There is a mysterious bronze plaque.* The plaque is full of symbolism, which has been studied in depth by several researchers in England.

We will share with you the most recent intriguing discoveries about this plaque. As well as assisting you to understand how the lay of the landscape outside the church relates to the bronze plate (which contains the map of a Stargate) inside the church.

After the 'twilight zone' type of experience at Alton Priors church, we will visit Golden Ball Hill and Adam's Grave. *Outside of being home to the oldest settlement in England, Golden Orb Hill is part of the Stargate complex.*

### ***The Stonehenge Experience***

Around 4500 years ago, the construction of Stonehenge was started. Since then, this Neolithic Cathedral has maintained all of its original power. The standing Sarsen stones came from the mysterious area of Marlborough Downs which is 20 miles north of Stonehenge. The Blue stones came from Preseli Hills in Wales, which is about 250 miles away from Stonehenge. These stones have many stories to tell. They have been accumulating wisdom for eons from ceremonies, cosmic downloads and more. The vast amount of Knowledge, energy, and intention that went into the design and construction of Stonehenge is forever locked into the core essence of each stone. This essence is seeable, tangible, and usable by all who can hear the whisperings of the 'Stone People'. These awe-inspiring stones saturated with history and stories are willing to tell - to share - their accumulated knowledge and wisdom with you.

Rest in this place where your daily thoughts easily slip away from you, allowing the stone people to enter your consciousness. Stone people who are able and willing to help you uncover and discover your true self. Your inner genius will become transparent as you are transported backwards and forwards through time: hearing, feeling, and becoming the ancient ceremonies. Once the great stone teachers have activated your ability to see, hear, taste, and absorb their wisdom, it is up to you to allow this new energy, light, and information to transform your life.

### ***The Salisbury And Winchester Cathedral Experience***

The builders of the great Cathedrals have always known exactly what they were doing. The buildings were designed with the utmost precision. They used shapes, forms, and geometries with great intention and thought. Every decoration, inside and outside, had only one possible location that could anchor its meaning into the overall purpose of the Cathedral. Everything is focused on bringing the visitor into a receptive state of higher consciousness. Making use of all of their senses. By seeing the geometries, the images, and colors. Hearing the overwhelming acoustics and sometimes otherworldly-sounding from the bells, singing, organ, and along with the sweet smell of incense. The more aware you are of the techniques the Cathedral builders used, and their use of symbols, the easier the Cathedrals can be read as a book.

St Thomas Church in Salisbury is almost bursting at the seams with it's alchemical and esoteric symbolism, coded wisdom, knowledge, and insights. Because it is one of England's true treasure chests, we will be paying a visit to this church, as well as the Cathedrals of Salisbury and Winchester, and of course, the Great Hall containing King Arthur's round table.

Your conscious interaction with the building structures, with the symbols and the colors will grow rapidly in depth and assist you to open up to higher and higher levels of awareness. These new understandings inevitably lead to self-understanding - to 'know thyself'. The true principle of every mystery school – of ever spiritual path – of every seeker of the Holy Grail- of every initiate on the Dragon Path.

### ***The Total Experience***

Ultimately, it is the total experience of this tour that shifts your perceptions, and thus changes the world around you. Seeing and having a direct experience of the cross- connections, while feeling and absorbing the wisdom woven through them, will continue to expand your horizons long after the tour has ended.

Regardless of whether it is Silbury Hill, or West Kennett Long Barrow; Dragon Hill, or the Stone Avenue; the Cathedral of Salisbury, or the one of Stonehenge, the encoded messages, stored knowledge and wisdom is always the same. Ultimately, they are all mirrors teaching you to see yourself. They reach out for your hand. They are waiting for you. They are ready to help you. To help in taming your inner dragons and become master over the external dragons.

*They are ready to help you discover your true self by reminding you that a trip to the Power Places of southern England is a journey into the power spots within yourself!*
